PROFESSIONAL SUMMARY

AI-native builder with 9+ years of engineering experience, specializing in shipping functional apps fast using AI coding agents. Built and launched TypescriptQuest (typescriptquest.com) -- a production SaaS with React, Node.js, PostgreSQL, Stripe, and OAuth -- using Claude Code as the primary build agent, solo from concept to production. Also shipped Conntext (Chrome Web Store) and CanIParkHere (GPT-4.1 vision API workflow) the same way. At SalonCentric (L'Oreal), translated ambiguous cross-functional problems into working technical solutions -- taking issues from business diagnosis to shipped fix without a PM layer. Comfortable at startup speed with minimal direction.

SKILLS

AI Tools: Claude Code, Codex, OpenAI API (GPT-4.1), Prompt Engineering, LLM Workflow Design

Technical: React, TypeScript, Node.js, JavaScript, Python, PostgreSQL, SQL, REST APIs, HTML, CSS, Tailwind, Express, MongoDB, Django

Platform: DigitalOcean, Netlify, Git, Optimizely, Salesforce Commerce Cloud, Chrome Extension APIs, Supabase

CORE COMPETENCIES

AI-Assisted Coding (Claude Code / Codex)

Prompt Engineering

Rapid Prototyping

AI-Powered Workflow Design

Full-Stack Development

Cross-Functional Problem Solving

End-to-End Product Ownership

Startup-Speed Execution

PROFESSIONAL EXPERIENCE

SalonCentric, a L'Oreal subsidiary

April 2023 - April 2025

Front End Engineer / Technical Support Engineer -- Contract

- Increased conversion rates by an average of **20%** (2023) and user engagement by **124%** (2024) through A/B testing web and mobile UI/UX experiences using Optimizely, JavaScript, and CSS.
- Owned technical onboarding for 9+ third-party sellers (Shopify, Magento, custom APIs), streamlining marketplace integrations with clear documentation and best practices. Contributed to a **4% increase in total sales volume** in 2023.
- Owned all technical support for custom API integrations, contributing to a **1.25% increase in total sales volume** in 2024. Served as main contact for marketplace business issues during senior integration engineer's paternity leave.
- Translated ambiguous cross-functional problems between marketplace operations and development partners into scalable technical solutions -- owning requirements, implementation, and resolution end-to-end.

General Assembly

Oct 2022 - Jan 2023

Software Engineering Fellow

- Led development of 4 full-stack web applications independently and in teams using React, JavaScript, Tailwind, Node, Express, MongoDB, Django, Python, and PostgreSQL.
- Rapidly learned modern technologies to deliver applications that met milestones under tight timelines.

FullBeauty Brands

May 2018 - Jan 2022

Front End Engineer

- Achieved average monthly transactions of **\$2.6M** throughout 2021 and a monthly average of **939K unique page views** by collaborating with cross-functional teams to build compelling user interfaces on Salesforce Commerce Cloud.
- Spearheaded efforts to ensure brand sites complied with WCAG ADA accessibility standards, improving from Level A to Level AA across all properties.

Front End Web Developer -- Contract & Freelance

- Delivered JavaScript/CSS animations, dynamic interfaces, and optimized microsites across 6 agency and startup clients simultaneously -- context-switching and shipping fast with minimal direction.

FEATURED PROJECTS

[TypescriptQuest](#) Claude Code

Built a gamified full-stack platform for learning TypeScript with interactive browser-based coding challenges, XP progression, and badge achievements. Used Claude Code as the primary AI coding agent to prompt-engineer and ship a production-ready app end-to-end -- React UI, Node/Express API, serverless PostgreSQL, OAuth, and Stripe payments. Concept to live paying users, solo.

React | TypeScript | Node.js | Express | PostgreSQL | Drizzle ORM | Tailwind | shadcn/ui | Stripe | OAuth | DigitalOcean | Netlify

[Conntext](#) Claude Code

Built and published a Chrome extension that adds a private notes panel to any LinkedIn profile. Led product vision end-to-end and used Claude Code as the AI coding agent to build and ship the full codebase. Live on the Chrome Web Store with active users.

React | TypeScript | Supabase | Chrome Extension APIs | Claude Code

[CanIParkHere](#) GPT-4.1 Vision

Built a mobile app MVP to help NYC drivers avoid parking tickets. Used Codex to build an AI-powered workflow that analyzes parking sign images via the GPT-4.1 vision API -- translating a photo into a real-time parking eligibility determination. Rapid prototype from problem identification to working demo.

Expo | React Native | TypeScript | OpenAI GPT-4.1 API | Codex
