PROFESSIONAL SUMMARY

AI-native product builder with 9+ years of frontend engineering and a track record of shipping full products from zero to one using Claude Code, Codex, and GPT-4 APIs. Built and launched TypescriptQuest, a full-stack SaaS with Stripe payments, OAuth, live in production - as solo product owner using Claude Code as the AI coding layer. Rapidly prototyped CanIParkHere, a React Native app with real-time GPT-4.1 vision analysis, from concept to working prototype. Published Conntext, a Chrome extension, on the Chrome Web Store end-to-end.

SKILLS

- AI Tools:** Claude Code, Cursor, Codex, V0, Bolt, OpenAI API, Prompt Engineering
- Frontend:** React, TypeScript, JavaScript, HTML, CSS, Tailwind, jQuery, Bootstrap
- Backend / Full-Stack:** Node.js, Express, REST APIs, PostgreSQL, MongoDB, Django, Python
- Product:** A/B Testing, Optimizely, Rapid Prototyping, MVP Development
- Other:** Supabase, Chrome Extension APIs, Stripe, OAuth, Digital Ocean, Netlify, Git

CORE COMPETENCIES

AI-Native Product Building

0-to-1 MVP Development

Claude Code & AI Coding Tools

Prompt Engineering

Full-Stack Prototyping

Product Discovery & Requirements

A/B Testing & Experimentation

SaaS Product Ownership

E-Commerce & Marketplace Platforms

PROFESSIONAL EXPERIENCE

SalonCentric, a L'Oreal subsidiary April 2023 - April 2025

Front End Engineer / Technical Support Engineer - Contract

- Increased conversion rates by an average of 20% (2023) and user engagement by 124% (2024) by running A/B tests using Optimizely, JavaScript, and CSS -- synthesized user behavior data to drive each product decision.
- Owned technical onboarding for 9+ third-party sellers (Shopify, Magento, custom APIs), translating recurring business issues into scalable technical solutions; contributed to a 4% increase in total sales volume in 2023.
- Owned all technical support for custom API integrations, contributing to a 1.25% increase in total sales volume in 2024. Served as main contact for marketplace business issues during senior integration engineer's paternity leave.

General Assembly Oct 2022 - Jan 2023

Software Engineering Fellow

- Led development of 4 full-stack web applications using React, JavaScript, Tailwind, Node, Express, MongoDB, Django, Python, PostgreSQL, and REST APIs while adhering to MVC design patterns.

FullBeauty Brands May 2018 - Jan 2022

Front End Engineer

- Achieved average monthly transactions of \$2.6M throughout 2021 and a monthly average of 939K unique page views by building conversion-critical product interfaces on Salesforce Commerce Cloud using HTML, CSS, and JavaScript/jQuery.
- Led WCAG ADA accessibility compliance efforts across 5+ brand sites, improving from level A to level AA.

Concentric Health Experience, Real Chemistry, Hayward Industries, TheBloc, TuneCore, Wooter Nov 2015 - May 2018

Front End Web Developer - Contract & Freelance I NYC/NJ

- Delivered JavaScript/CSS animations, dynamic interfaces, and optimized microsites across 6 simultaneous agency and startup clients -- managing timelines and technical execution independently without a PM layer.

FEATURED PROJECTS

TypescriptQuest Live GitHub

Identified a gap in how developers learn TypeScript -- existing tools were static and passive. Defined the product scope, built a gamified full-stack platform with interactive browser-based coding challenges, XP progression, and badge achievements using Claude Code as the AI coding agent. Shipped from concept to production: OAuth, Stripe payments, and serverless PostgreSQL. Led the full product lifecycle solo - discovery, spec, build, launch, and iteration.

React | TypeScript | Node.js | Express | PostgreSQL | Drizzle ORM | Tailwind | shadcn/ui | Stripe | OAuth | Claude Code

Conntext Live on Chrome Web Store GitHub

Led product vision and used Claude Code as AI coding agent to build and publish a Chrome extension that adds a private notes panel to any LinkedIn profile. Notes auto-populate with name and photo, persist across sessions, and surface instantly without leaving the page. Shipped end-to-end to a real distribution channel (Chrome Web Store).

React | TypeScript | JavaScript | Supabase | Chrome Extension APIs | HTML | CSS | Claude Code

CanIParkHere (prototype) GitHub

Identified a real user pain point - NYC drivers losing money on parking tickets. Built a working React Native prototype with GPT-4.1 vision API using Codex: user points camera at a parking sign, app instantly outputs eligibility. Validated the concept before investing further - the full cycle from pain point to testable product in a week.

Expo | React Native | TypeScript | OpenAI GPT-4.1 API | Codex
