PROFESSIONAL SUMMARY

Frontend engineer with 8+ years of experience and 2+ years in customer-facing technical support engineering, specializing in REST API debugging, third-party integration troubleshooting, and cross-functional escalation management. At SalonCentric (L'Oreal subsidiary), owned the full technical support lifecycle for custom API integrations - diagnosing root causes, coordinating with marketplace business teams, and driving resolution with development partners. Contributed to measurable business outcomes: 20% conversion lift, 4% total sales volume increase, and successful onboarding of 9+ third-party sellers. Self-starter comfortable operating independently in EST, managing high-volume issue queues, and translating technical problems into clear communications for both technical and non-technical stakeholders.

WORK EXPERIENCE

SalonCentric, a L'Oreal Subsidiary

Apr 2023 - Apr 2025

Front End Engineer / Technical Support Engineer - Contract

- **Owned all technical support for custom API integrations** - diagnosed root causes of integration failures, escalated to engineering partners, and managed communication with marketplace business teams; contributed to a 1.25% increase in total sales volume in 2024.
- Served as **primary technical contact for marketplace operations** during senior integration engineer's paternity leave - managed high-priority customer escalations and cross-functional issue resolution without gaps in coverage.
- **Onboarded 9+ third-party sellers** (Shopify, Magento, custom APIs) by providing technical documentation, API debugging support, and best practice guidance; contributed to a 4% increase in total sales volume in 2023.
- Drove a **20% conversion rate increase (2023)** and **124% user engagement lift (2024)** through A/B testing web and mobile UI/UX experiences using Optimizely, JavaScript, and CSS.
- Bridged marketplace operations and development partners by translating recurring customer issues into scalable, long-term technical solutions.

Front End Engineer

- Maintained e-commerce frontend on Salesforce Commerce Cloud supporting **\$2.6M average monthly transactions** and 939K monthly unique page views - requiring close coordination with cross-functional teams to resolve UI and integration issues rapidly.
- Led WCAG ADA accessibility compliance effort across brand sites, improving from Level A to Level AA - a process requiring systematic issue discovery, documentation, and stakeholder communication.

Concentric Health Experience, Real Chemistry, Hayward Industries, TheBloc, TuneCore, Wooter

Nov 2015 - May 2018

Front End Web Developer - Contract & Freelance

- Developed JavaScript/CSS animations, dynamic interfaces, and optimized banner ads, emails, and microsites across multiple agency and startup clients - managed client expectations and technical deliverables independently.

PROJECTS

TypescriptQuest

Shipped a full production web app solo end-to-end - REST API backend (Node/Express/PostgreSQL), OAuth, Stripe payments integration, and serverless deployment. Demonstrates ability to build and debug complex API integrations in a real production environment.

React · TypeScript · Node.js · Express · PostgreSQL · Drizzle ORM · Stripe · OAuth · DigitalOcean · Netlify

Conntext - Chrome Extension

Built and published a Chrome extension using Supabase as the backend API - integrated Chrome Extension APIs, persistent storage, and real-time data sync. Live on the Chrome Web Store.

React · TypeScript · Supabase · Chrome Extension APIs · JavaScript · CSS

CanIParkHere

Built a mobile app MVP integrating OpenAI GPT-4.1 vision API to analyze parking sign images in real time. Demonstrates hands-on REST API integration and rapid prototyping.

Expo · React Native · TypeScript · OpenAI GPT-4.1 API
