WORK EXPERIENCE

SalonCentric, a L'Oreal Subsidiary

April 2023 - April 2025

Front End Engineer / Technical Support Engineer - Contract

- **Served as de-facto tech lead** during senior engineer's extended leave - owned all technical decisions and became primary contact for marketplace business escalations, contributing to a 1.25% increase in total sales volume in 2024.
- Increased conversion rates by an average of **20% (2023)** and user engagement by **124% (2024)** through A/B testing web and mobile UI/UX experiences using Optimizely, JavaScript, and CSS.
- Owned frontend architecture for **9+ third-party marketplace API integrations** (Shopify, Magento, custom APIs) - wrote integration docs, onboarded sellers, and contributed to a 4% increase in total sales volume in 2023.
- Bridged marketing operations and engineering partners by translating recurring business pain points into scalable, long-term technical solutions.

FullBeauty Brands

May 2018 - Jan 2022

Front End Engineer

- Built compelling, high-traffic UIs on Salesforce Commerce Cloud - sustained **\$2.6M average monthly transactions** and **939K unique page views/month** throughout 2021 in collaboration with cross-functional product, design, and marketing teams.
- **Led WCAG AA compliance effort** across 5+ brand storefronts - improved from Level A to AA through systematic audit and remediation, directly reducing legal accessibility risk. Completed edX Web Accessibility certification.

Nov 2015 - May 2018

Front End Web Developer - Contract & Freelance | NYC/NJ

- Delivered JavaScript/CSS animations, dynamic Handlebars.js interfaces, and optimized banner ads, emails, and microsites across multiple agency and startup clients.

Software Engineering Fellow

- Led development of 4 full-stack web applications using React, Node.js, Express, MongoDB, Django, PostgreSQL, and REST APIs - both independently and in collaborative teams.

PROJECTS

[TypescriptQuest](#) LIVE

Architected and shipped a full-stack gamified learning platform for TypeScript - from component system design to production deployment. Built solo using Claude Code as an AI coding agent, featuring OAuth authentication, Stripe payments, and serverless PostgreSQL. Demonstrates end-to-end frontend architecture ownership across React, TypeScript, and Node.js.
