PROFESSIONAL SUMMARY

AI-native product engineer with 8+ years shipping user-facing products at e-commerce scale. AI coding tools are a core part of how I build: shipped TypescriptQuest (full-stack React/Node/PostgreSQL, Stripe, OAuth - production) and Conntext (Chrome Web Store) end-to-end using Claude Code as primary AI coding agent, and CanIParkHere (React Native + OpenAI GPT-4.1 vision API) using Codex. Strong product sense backed by measurable results: 20% CVR increase and 124% user engagement lift through A/B testing at SalonCentric (L'Oreal). I move fast, own end-to-end, and thrive shipping new consumer experiences at the frontier of AI-native development.

SKILLS

AI Tools: Claude Code, Codex, OpenAI API, Prompt Engineering, GPT-4.1

Frontend: React, TypeScript, JavaScript, React Native, HTML, CSS, Tailwind, Flexbox, jQuery, Bootstrap

Backend: Node.js, Express, PostgreSQL, MongoDB, Django, Python, REST APIs, Drizzle ORM, Mongoose

Tools & Platforms: Git, Optimizely, SFCC, Stripe, OAuth, Supabase, Chrome Extension APIs, Jest, Digital Ocean, Netlify, NPM

Standards: Web Accessibility (WCAG AA), Responsive Web Design, MVC, ADA Compliance

CORE COMPETENCIES

AI-Native Development

End-to-End Product Engineering

React & TypeScript

Consumer Web & Mobile

Full-Stack Delivery

A/B Testing & Conversion Optimization

API Integration & Marketplace

Web Accessibility (WCAG AA)

WORK EXPERIENCE

SalonCentric, a L'Oréal Subsidiary April 2023 - April 2025

Front End Engineer / Technical Support Engineer - Contract

- Ran **product-minded A/B tests** on web and mobile UI/UX using Optimizely - drove **20% conversion rate increase** (2023) and **124% user engagement lift** (2024). Fast iteration, measured product impact.
- Owned all technical support** for custom API integrations end-to-end, contributing to a 1.25% increase in total sales volume (2024). Served as sole technical contact for marketplace operations during senior integration engineer's paternity leave - full ownership, zero escalations.
- Led technical onboarding for **9+ third-party sellers** (Shopify, Magento, custom APIs), streamlining marketplace integrations with clear documentation and best practices. Contributed to 4% total sales volume increase in 2023.
- Translated recurring business issues into scalable, long-term technical solutions - bridging marketplace operations and engineering partners.

FullBeauty Brands May 2018 - January 2022

Front End Engineer

- Achieved **average monthly transactions of \$2.6M** throughout 2021 and a monthly average of 939K unique page views by building compelling user interfaces on Salesforce Commerce Cloud using HTML, CSS, and JavaScript/jQuery with cross-functional teams.
- Spearheaded **WCAG ADA accessibility compliance** effort, improving brand sites from Level A to Level AA - included completing an edX web accessibility certification.

General Assembly October 2022 - January 2023

Software Engineering Fellow

- Led development of 4 full-stack web applications - independently and in teams - using React, JavaScript, Tailwind, Node, Express, MongoDB, Django, Python, PostgreSQL, and REST APIs with MVC patterns.

Front End Web Developer - Contract & Freelance | NYC/NJ

- Developed JavaScript/CSS animations, dynamic interfaces using Handlebars.js, and optimized banner ads, emails, and microsites across multiple agency and startup clients.

PROJECTS

[TypescriptQuest](#) LIVE IN PRODUCTION

Shipped full-stack consumer web app end-to-end using Claude Code as AI coding agent - React, Node.js, PostgreSQL, Stripe payments, OAuth. Gamified platform for learning TypeScript with interactive browser-based coding challenges, XP progression, and badge achievements. Hosted on DigitalOcean and Netlify.

React · TypeScript · Node.js · Express · PostgreSQL · Drizzle ORM · Tailwind · shadcn/ui · Stripe · OAuth · Claude Code

[Conntext](#) CHROME WEB STORE

Built and published a Chrome extension that adds a private notes panel to any LinkedIn profile - notes auto-populate with name and photo, persist across sessions, and surface instantly without leaving the page. Led product vision end-to-end; used Claude Code as AI coding agent to build and ship the full codebase.

React · TypeScript · JavaScript · Supabase · Chrome Extension APIs · HTML · CSS · Claude Code

[CanIParkHere](#) MOBILE PROTOTYPE

Built mobile-first consumer app prototype - React Native, TypeScript, OpenAI GPT-4.1 vision API to analyze NYC parking signs in real time and instantly determine parking eligibility. Full end-to-end solo build using Codex as AI coding agent.

Expo · React Native · TypeScript · OpenAI GPT-4.1 API · Codex
