PROFESSIONAL SUMMARY

AI-native product engineer with 8+ years shipping user-facing products at scale. Uses Claude Code and Codex as primary development tools -- shipped end-to-end: [TypescriptQuest](#) (production full-stack app, Stripe + OAuth, concept to production), Conntext (live on Chrome Web Store with active users), and CanIParkHere (React Native + GPT-4.1 vision API). Proven product sense: **20% CVR increase** and **124% user engagement lift** via A/B testing at SalonCentric (L'Oreal). Built for end-to-end ownership -- from problem identification to shipped product.

SKILLS

AI & Dev Tools: Claude Code, Codex, OpenAI API (GPT-4.1), Prompt Engineering

Technical: React, TypeScript, JavaScript (ES6+), Node.js, PostgreSQL, REST APIs, Express, React Native, HTML5, CSS3, Tailwind, MongoDB, Python, Django

Platforms: Supabase, DigitalOcean, Netlify, Salesforce Commerce Cloud, Chrome Extension APIs, Git, Optimizely, NPM

CORE COMPETENCIES

AI-Augmented Development

End-to-End Product Ownership

React & TypeScript

Independent Shipping & Rapid Prototyping

A/B Testing & Conversion Optimization

Consumer-Facing Web at Scale

Full-Stack Delivery

PROFESSIONAL EXPERIENCE

SalonCentric, a L'Oreal subsidiary

April 2023 - April 2025

Front End Engineer / Technical Support Engineer -- Contract

- Ran product-minded A/B tests on web and mobile UI/UX using Optimizely -- drove a **20% CVR increase** (2023) and **124% user engagement lift** (2024) through fast iteration and analytics-driven decisions.
- Facilitated technical onboarding for 9+ third-party sellers (Shopify, Magento, custom APIs), contributing to a **4% increase in total sales volume** in 2023. Served as sole technical contact for marketplace business issues during senior integration engineer's paternity leave.
- Translated recurring business issues into scalable technical solutions -- owning diagnosis, scoping, and shipping fixes end-to-end with no PM layer.

FullBeauty Brands

May 2018 - Jan 2022

Front End Engineer

- Built and maintained UI across multiple brand sites on Salesforce Commerce Cloud, achieving **\$2.6M average monthly transactions** and **939K unique page views** throughout 2021 in collaboration with cross-functional design, product, and engineering teams.
- Led WCAG 2.1 AA accessibility compliance across all brand sites -- remediating semantic HTML, ARIA attributes, and color contrast site-wide. Completed the edX Web Accessibility certification.

General Assembly

Oct 2022 - Jan 2023

Software Engineering Fellow

- Led development of 4 full-stack web applications independently and in teams using React, JavaScript, Tailwind, Node, Express, MongoDB, Django, Python, and PostgreSQL.

Concentric Health Experience, Real Chemistry, Hayward Industries, TheBloc, TuneCore, Wooter

Nov 2015 - May 2018

Front End Web Developer -- Contract & Freelance

- Developed JavaScript/CSS animations, dynamic interfaces using Handlebars.js, and optimized banner ads, emails, and microsites across 6 agency and startup clients.

FEATURED PROJECTS

[TypescriptQuest](#) React / TypeScript

Shipped a production full-stack app end-to-end using Claude Code as AI coding agent -- gamified TypeScript learning with XP progression, OAuth, Stripe, and PostgreSQL. Owned all product and technical decisions from concept to production. Hosted on DigitalOcean and Netlify.

React | TypeScript | Node.js | Express | PostgreSQL | Drizzle ORM | Tailwind | shadcn/ui | Stripe | OAuth | Claude Code

[Conntext](#) Chrome Web Store

Built and published a Chrome extension that adds a private notes panel to any LinkedIn profile. Led product vision end-to-end and used Claude Code to build and ship the full codebase. Live on the Chrome Web Store with active users.

React | TypeScript | Supabase | Chrome Extension APIs | Claude Code

[CanIParkHere](#) React Native / GPT-4.1

Built a mobile-first consumer app prototype to help NYC drivers avoid parking tickets. Used Codex to rapidly prototype a React Native app that analyzes parking sign images via the GPT-4.1 vision API and returns real-time parking eligibility -- end-to-end solo build.

Expo | React Native | TypeScript | OpenAI GPT-4.1 API | Codex
