PROFESSIONAL SUMMARY

Frontend engineer with 8+ years building production web systems using TypeScript and JavaScript. Experience integrating LLM APIs into shipped applications, including a full-stack platform built with prompt engineering via Claude Code and a React Native app leveraging OpenAI GPT-4.1 vision API for real-time image analysis. Background in production system ownership, third-party API integrations, and data-driven optimization through A/B testing - delivering measurable results in high-traffic e-commerce environments. Actively building with AI tooling; comfortable with end-to-end ownership from design to deployment.

SKILLS

Languages: TypeScript, JavaScript, Python, HTML, CSS **Frontend:** React, React Native, Tailwind, shadcn/ui, jQuery, Bootstrap, Handlebars.js

Backend: Node.js, Express, Django, REST APIs **Data/DB:** PostgreSQL, MongoDB, Mongoose, SQL, Drizzle ORM

AI/LLM: OpenAI API (GPT-4.1), Claude Code, Codex, Prompt Engineering

Platform: Stripe, OAuth, DigitalOcean, Netlify, Salesforce Commerce Cloud, Optimizely

Other: Git, Jest, WCAG Accessibility, Responsive Web Dev, NPM

CORE COMPETENCIES

TypeScript / JavaScript

LLM API Integration

Prompt Engineering

Production System Ownership

A/B Testing & Optimization

API Integrations

Python

End-to-End Delivery

WORK EXPERIENCE

SalonCentric, a L'Oreal subsidiary

April 2023 - April 2025

Front End Engineer / Technical Support Engineer - Contract

- Owned technical support for custom API integrations across 9+ third-party marketplace sellers (Shopify, Magento, custom APIs); analyzed recurring failure patterns and translated them into scalable, long-term solutions - contributing to a **1.25% increase in total sales volume** in 2024.
- Built and iterated on A/B test variants for web and mobile UI/UX using **Optimizely, TypeScript, JavaScript, and CSS** - achieving a **20% conversion rate increase** (2023) and **124% user engagement lift** (2024).
- Facilitated onboarding integrations for 9+ third-party sellers, producing documentation and best practices that contributed to a **4% increase in total sales volume** in 2023.
- Served as primary technical contact during senior integration engineer's leave, managing cross-team coordination between marketplace operations and development partners.

FullBeauty Brands

May 2018 - Jan 2022

Front End Engineer

- Delivered **\$2.6M average monthly transactions** and **939K unique monthly page views** throughout 2021 by building and maintaining user interfaces on Salesforce Commerce Cloud (HTML, CSS, JavaScript/jQuery) in collaboration with cross-functional teams.
- Led WCAG ADA accessibility compliance effort, improving site standards from level A to level AA across brand properties.

General Assembly

Oct 2022 - Jan 2023

Software Engineering Fellow

- Built 4 full-stack web applications (independently and in teams) using React, TypeScript, Node.js, Express, MongoDB, Django, Python, PostgreSQL, and REST APIs following MVC design patterns.

Front End Web Developer - Contract & Freelance | NYC/NJ

- Delivered JavaScript/CSS animations, dynamic Handlebars.js interfaces, and optimized banner ads, emails, and microsites across agency and startup clients.

PROJECTS

[TypescriptQuest](#) Production

Shipped a gamified full-stack platform for learning TypeScript - interactive browser-based coding challenges, XP progression, and badge achievements. Leveraged **Claude Code as an AI coding agent**, using prompt engineering to architect and deliver a production-ready app end-to-end: OAuth, Stripe payments, and serverless PostgreSQL. Demonstrates LLM-augmented development and end-to-end system ownership.

React · TypeScript · Node.js · Express · PostgreSQL · Drizzle ORM · Tailwind · shadcn/ui · Stripe · OAuth · DigitalOcean · Netlify

[CanIParkHere](#) Prototype

Built a React Native mobile MVP using **OpenAI GPT-4.1 vision API** for real-time analysis of parking sign images - instantly determining parking eligibility. Demonstrates LLM API integration, prompt engineering for vision tasks, and rapid mobile prototyping.

Expo · React Native · TypeScript · OpenAI GPT-4.1 API

[SaveTheRims](#)

Web app enabling drivers to report and locate NYC potholes using GPS coordinates, rendered in list and Google Maps format.

MongoDB · Express · React · Node · Google Maps API · Tailwind · React Router
