WORK EXPERIENCE

SalonCentric, a L'Oreal Subsidiary April 2023 - April 2025

Front End Engineer / Technical Support Engineer - Contract

- Drove A/B testing of marketing UI/UX using Optimizely, achieving a **20% conversion rate increase** (2023) and **124% user engagement lift** (2024) across web and mobile commerce surfaces - applying analytics-driven frontend decisions to high-traffic B2C pages.
- Owned technical onboarding for **9+ third-party sellers** (Shopify, Magento, custom APIs), designing integration flows and documentation that streamlined marketplace lead generation and contributed to a **4% increase in total sales volume** (2023).
- Owned all technical support for custom API integrations, contributing to a **1.25% increase in total sales volume** (2024); served as sole technical and business contact during senior integration engineer's leave.
- Translated recurring business issues into scalable technical solutions - bridging marketplace operations and development partners with clear documentation and performance-focused architecture decisions.

FullBeauty Brands May 2018 - January 2022

Front End Engineer

- Built and maintained marketing and product listing UI across multiple brand sites using Salesforce Commerce Cloud (SFCC) - supporting **\$2.6M average monthly transactions** and **939K unique page views** (2021) through accessible, mobile-first, responsive design.
- Led **WCAG 2.1 AA accessibility compliance** across all brand marketing pages, upgrading from Level A to Level AA - eliminating ADA risk and establishing a reusable accessibility pattern library for cross-functional teams.

General Assembly

October 2022 - January 2023

Software Engineering Fellow

- Led frontend architecture and code review for 4 full-stack web applications, both independently and in collaborative teams, using React, TypeScript, Node.js, PostgreSQL, and REST APIs.

Concentric Health Experience · Real Chemistry · Hayward Industries · TheBloc · TuneCore · Wooter

November 2015 - May 2018

Front End Web Developer - Contract & Freelance

- Developed JavaScript/CSS animations, dynamic interfaces (Handlebars.js), and marketing microsites across multiple agency and startup clients in NYC/NJ.

PROJECTS

TypescriptQuest [Live · typescriptquest.com](#)

Architected and shipped a production-grade React/TypeScript learning platform end-to-end - including component library design, OAuth authentication, Stripe payments, and serverless PostgreSQL. Demonstrates full frontend architecture ownership: stack selection, CI/CD via Netlify, and real-user deployment on DigitalOcean.

React · TypeScript · Node.js · Express · PostgreSQL · Drizzle ORM · Tailwind · shadcn/ui · Stripe · OAuth

Conntext [Live · Chrome Web Store](#)

Built and published a Chrome extension adding a private notes panel to LinkedIn profiles - persistent across sessions, auto-populated with contact data. Demonstrates mobile-first UI design in a constrained viewport and end-to-end product ownership from spec to Chrome Web Store publication.

React · TypeScript · Supabase · Chrome Extension APIs · CSS

CanIParkHere [Prototype · GitHub](#)

Mobile app MVP that analyzes NYC parking sign images using GPT-4.1 vision API to determine real-time parking eligibility - built with Expo/React Native and OpenAI integration.
